

# Mother's Eco Garden

The **Mother's Eco Garden** is the extraordinary soil-free indoor garden that grows plants 5 times faster than soil. The **Mother's Eco Garden** brings the magic of the indoor garden virtually anywhere - it sets up in minutes and the slim, elegant design fits beautifully in your kitchen, home, or office. Grow fresh herbs, vegetables, salad greens, flowers and more... let your imagination grow wild! Just insert the seeding medium in your garden, add water and nutrients, and then watch it grow! Easy as A to Z!

**DESK TYPE**

## High-performance Grow LED Light

Our high-performance Grow LED Lights are proprietary, energy efficient, large spectrum lights that deliver everything healthy plants need to grow... fast! Now you don't need a sunny window - grow anywhere, any time of year.

## Amazingly Simple

The mother's Eco Garden assembles very easy without tools and comes with everything you need to start growing. Planting is fun and easy- just insert seeds the seeding medium in your garden, add water and specially formulated Liquid Nutrients. Most plants germinate within 3-10 days, are ready for harvesting in 4-6 weeks, and will keep producing continuous harvests for up to 6 months and longer. Indoor gardening can't get any tastier or simpler!
